

**CHAMPIONS
MADE BY
SCHIERLE**

**COMPETENCE IN TRADING AND FINISHING
OF TUBES AND CHROME PLATED RODS**

Schierle Stahlrohre GmbH & Co. KG is the largest storage facility for cylinder tubes and chrome plated rods in Europe. Our strength is our service, trading and finishing.

OUR "BIG 5" FOR YOUR SUCCESS:

- :: seamless and welded cylinder tubes
- :: chrome plated rods
- :: chrome plated tubes
- :: hydraulic line tubing
- :: mechanical manufacturing on machines in-house

THE WAREHOUSE

- :: large quantities of cylinder tubes and chrome plated rods available from stock
- :: the largest range of dimensions in Europe on a 10.000 m² storage area
- :: own, enlarged facilities for further processing
- :: technical expert advice
- :: high-bay warehouse-racking system

**CHAMPIONS
MADE BY
SCHIERLE**

Timo Rost, boxer from Düsseldorf, WBF Super Middleweight Champion 2019. Supported by Schierle Stahlrohre.

Our range includes cylinder tubes and chrome plated rods for hydraulic and pneumatic applications in steel, stainless steel and aluminium. Including a wide assortment of precision steel tubes, hydraulic line tubing in E235 (St37.4), E355 (St52.4), AISI 304 (1.4301), AISI 316L (1.4404) and AISI 316Ti (1.4571).

We are always at your service with our state-of-the-art warehouse and our automatic warehouse-system, adjacent to our headquarters in Neuss. This recently expanded facility allows us to machine components according to your individual requirements.

The warehouse at our Dölzig branch (near Leipzig) is seeing continuous growth and guarantees fast availability for our clients in the East of Germany.

Schierle Stahlrohre GmbH & Co. KG offers you a full range of products and service which is not easily achieved elsewhere.

In the Netherlands All Steel Products B.V. (ASP) and in South Africa Ferrotrade International PTY belong to the Schierle-Group.

In 2019 we also established Schierle Russland LLC in Odintsovo, Moscow region, where we stock Schierle products for our customers in Russia.

THE PROCESSING

- :: customized according to technical requirements and drawings
- :: on machines which are state-of-the-art and enable a high level of precision
- :: multifaceted – suitable tools for each process

Saws

up to Ø 530 mm, also for induction hardened rods

Cutting center

Sawing, chamfering (inside, outside), deburring, planing, cleaning, measuring and demagnetizing
up to Ø 105 mm

Center grinding

Steel and stainless steel
up to Ø 300 mm and 2.50 m length
starting from ISO-tolerance range 6

Centerless grinding

Steel and stainless steel
up to Ø 250 mm and 10 m length
starting from ISO-tolerance range 6

Belt grinding and polishing

up to Ø 325 mm and 14 m length
Roughness from Ra 0.1 µm

Straightening

up to Ø 250 mm and 12 m length
Straightness up to 0.05 : 1.000 mm

Honing

Steel and stainless steel up to Ø 250 mm
starting from ISO-tolerance range 7

Conventional turning

up to Ø 220 mm and 9 m length
up to Ø 500 mm and 6 m length

CNC turning

up to Ø 400 mm and 2 m length
up to Ø 160 mm and 5 m length

Milling

up to 5 m length

Demagnetizing

up to Ø 105 mm

Here you will find an all-encompassing service with regards to all further treatments:

Chrome and nickel plating

Heat treatment

Hardening

Corrosion protection

Friction welding

Let our technical department assist you!

TESTED QUALITY

Professional quality assurance. Schierle Stahlrohre GmbH & Co. KG adheres to a quality management system which complies with the DIN EN ISO 9001:2015 standard.

All employees are trained to ensure that the requirements of the QM system are always complied to and further improvements are added. "In terms of quality we do not compromise." This explicit commitment to the QM system confirms that Schierle Stahlrohre GmbH & Co. KG only collaborates with audited and certified suppliers. Often, low-cost suppliers do not honour this quality commitment. High-quality calibrated measuring equipment is used for incoming, outgoing as well as in-process inspections:

Highest precision and strict quality control distinguish our products.

Thickness gauges for metal and non-metal layers

Ultrasonic and wall thickness gauges

Measuring table for measuring of form and positional tolerance of cylindrical parts

Roughness gauge for axial and radial measuring

Hardness gauges

You can depend on our quality!

Since 2016 Schierle Stahlrohre GmbH & Co. KG is also certified by UMS DIN EN ISO 14001:2015 environmental management.

State-of-the-art-equipment
to meet your most demanding
requirements.

PRECISION PRODUCTS ABOVE THE NORM

By using most advanced and official calibrated measuring equipment,
we guarantee dimensional stability to meet the highest quality demands.

ALL AROUND THE WORLD

Schierle Stahlrohre GmbH & Co. KG is represented by local agents in many countries, who personally take care of our overseas clients. Therefore, constant presence and direct service is guaranteed.
